To Whom It May Concern:

I am happy to provide this letter of reference as my personal and professional endorsement of Mr. Norbert Thomas as Media Consultant/Instructor.

Throughout the past two years that I have personally known him, Mr. Thomas has exhibited a thorough knowledge of the film and entertainment industry. He has demonstrated the capacity and ability to perform with a high degree of professional expertise. During the summer of 1997, I hired Mr. Thomas to teach a summer-long seminar on film production to fifty summer youth. The culmination of which was a news magazine type program entitled "Youth on Youth".

I feel that Mr. Thomas has the qualifications and practical experience to perform in any position which requires technical and teaching expertise. I strongly recommend him for consideration.

Sincerely,

Belita E. Wyatt
Deputy Director
